- 7 ABOUT US

WHAT WE DO?

A pioneering **robotic assistant** with a disruptive solution to **various spinal procedures**.

OUR CULTURE

OUR MISSION

Improve patients' living conditions through innovative technological solutions.

OUR VISION

Setting a benchmark for tech solutions in healthcare.

OUR VALUES

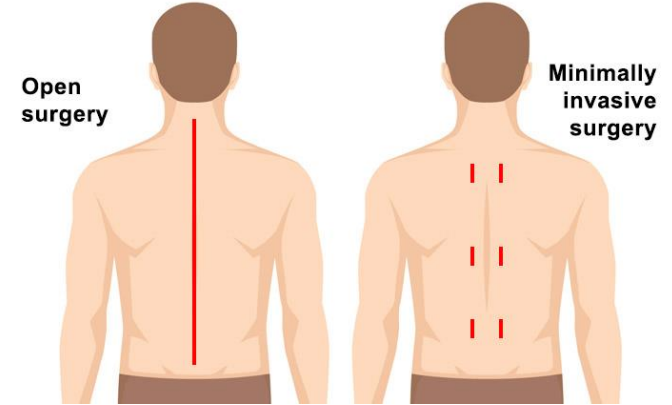

PASSION * TRANSPARENCY * INNOVATION
TEAMWORK * CLIENT ORIENTED

OUR VALUE PROPOSITION

OUR ROBOTIC ASSISTANT ALLOWS MINIMALLY INVASIVE SURGERIES

LESS HOSPITAL RECOVERY

LESS X-RAY EXPOSURE

CYBER SURGERY

ADDED VALUE

SAFETY

USER - ORIENTED

MULTIPURPOSE

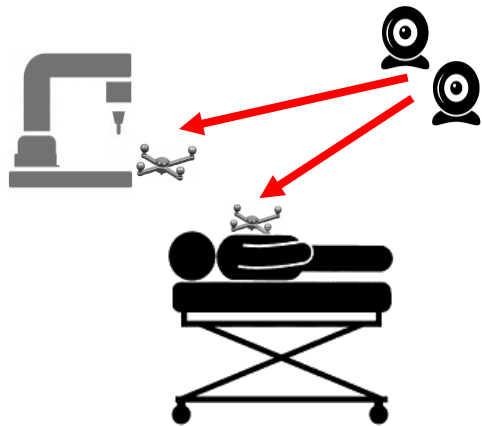

COST - EFFECTIVE

HOW?

By the development of a **novel tracking system**.

Current Market Technology

Optical Tracking

Cyber Surgery's Technology

Haptic Tracking

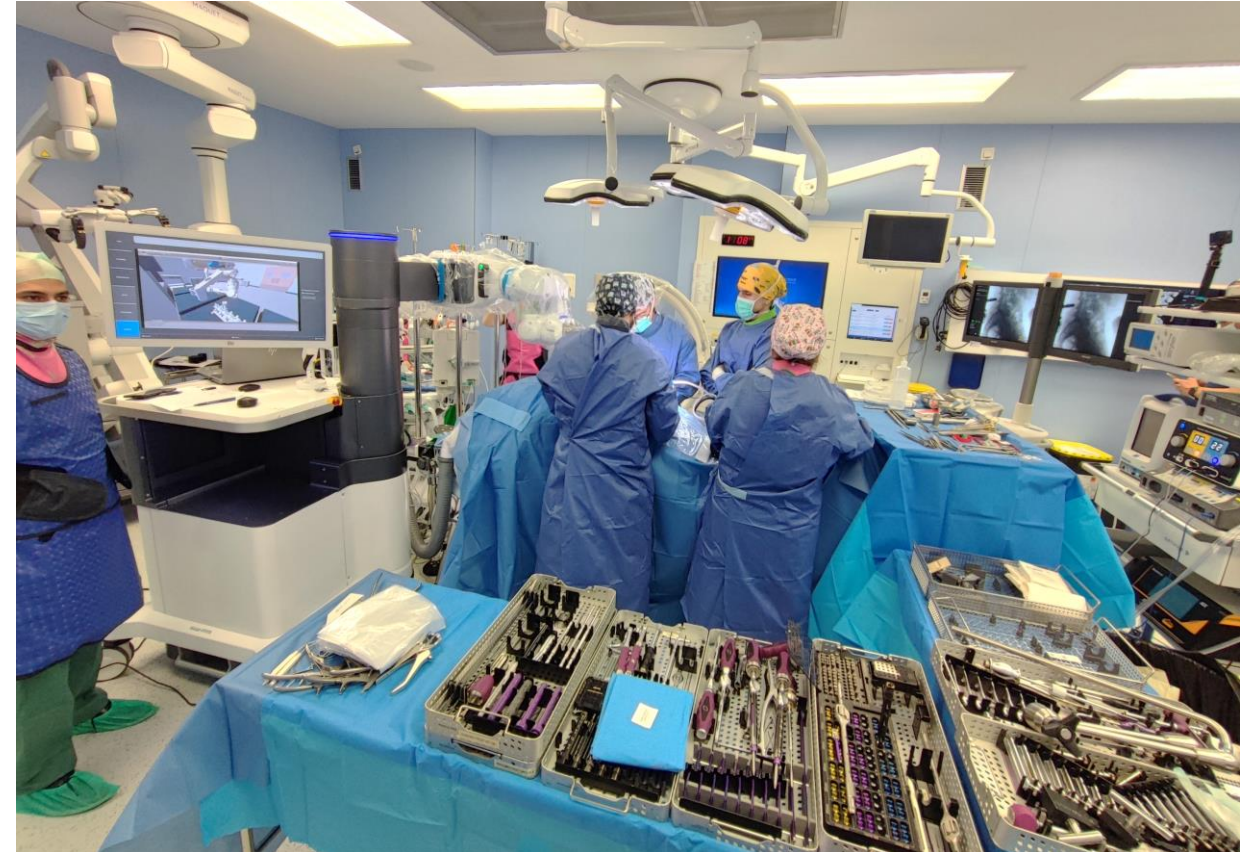

- ➔
- ✓ Higher Accuracy
 - ✓ Higher control loop frequency
 - ✓ No affected by occlusions

NEXT GENERATION TECHNOLOGY

- Mechanical Tracking (**Patent PCT/2017/030704**)
- Surgical Procedure (**Patent PCT/2017/030705** and **EP20382920.5**)

CLINICAL TRIALS ONGOING

Cyber Surgery is successfully finalizing clinical trials on patients

March 29, 2023

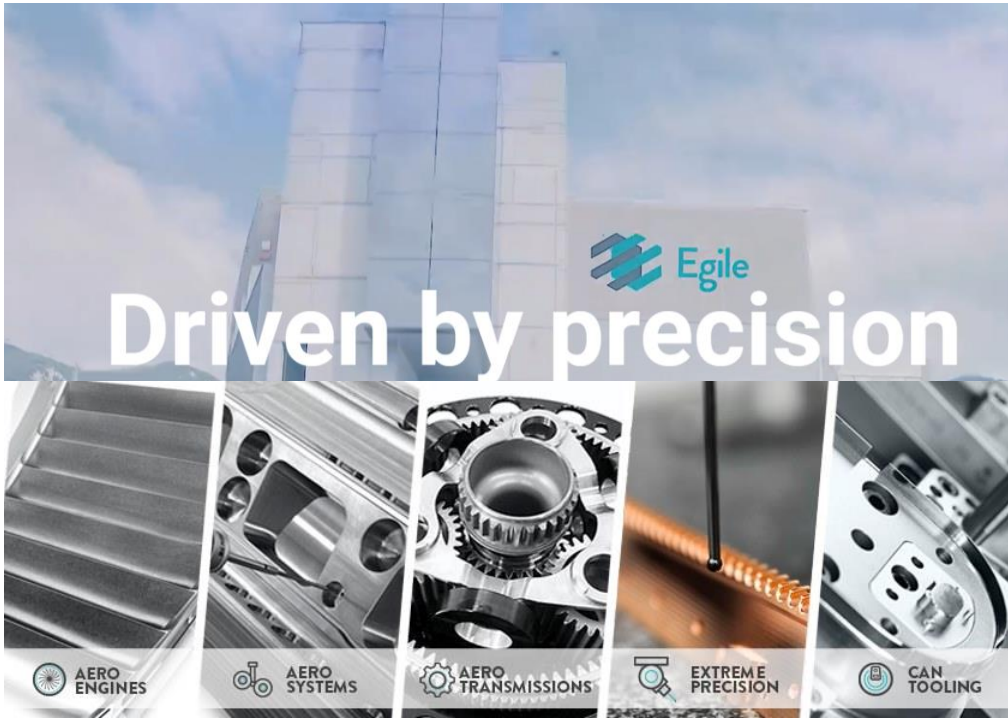

Cyber Surgery is successfully completing a clinical trial on patients with its surgical robot for spinal operations. Our robot is the first of its kind, developed in Spain to

CURRENT INVESTORS

1

- Cyber Surgery is a **spin-off** of **Egile**.
- Expertise in industrial manufacturing and new business creation.

2

- **Health Insurance** and **Health Services** Provider.
- More than 1,800 healthcare professionals in IMQ Clinics in the Basque Country and 43,000 out of this region.
- Market overview.

3

4

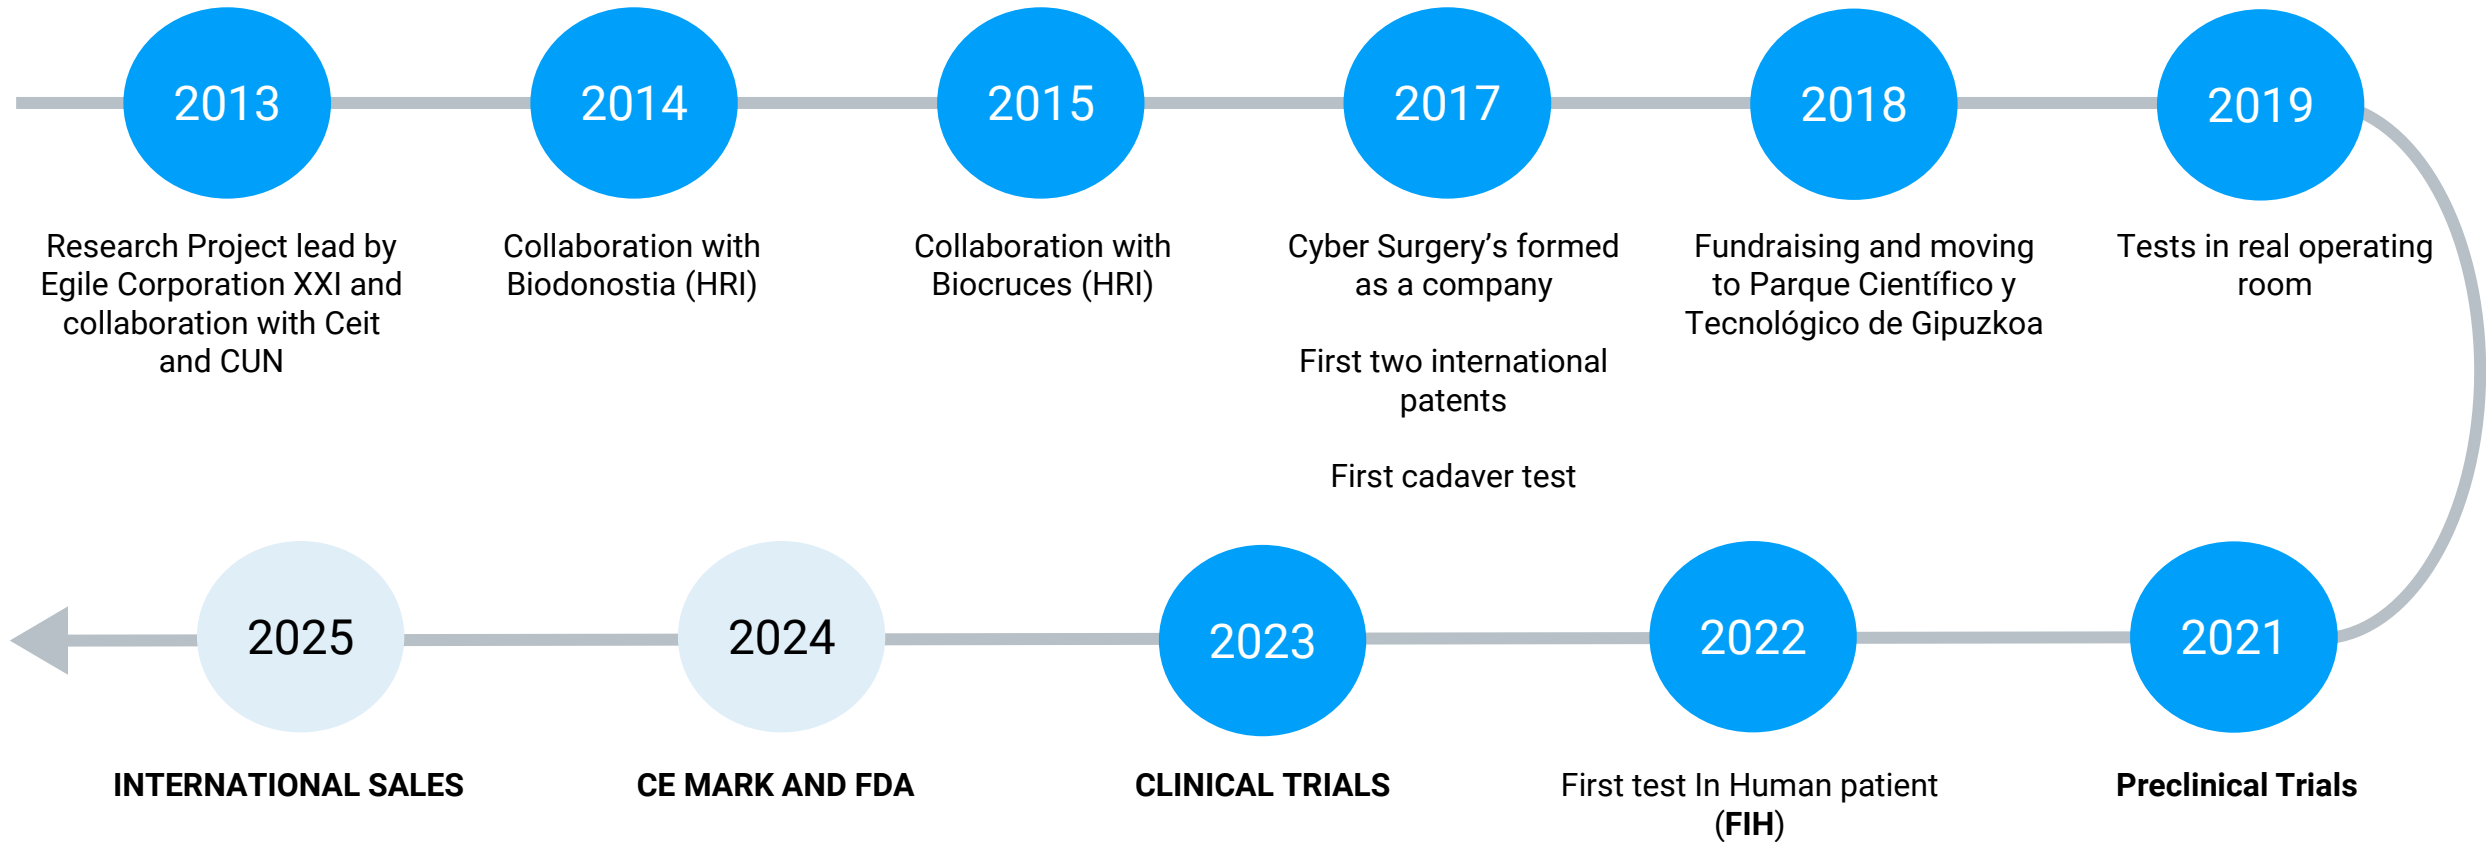

Venture Capital.

5

Salesoc. Business Angel.

MILESTONES ROADMAP

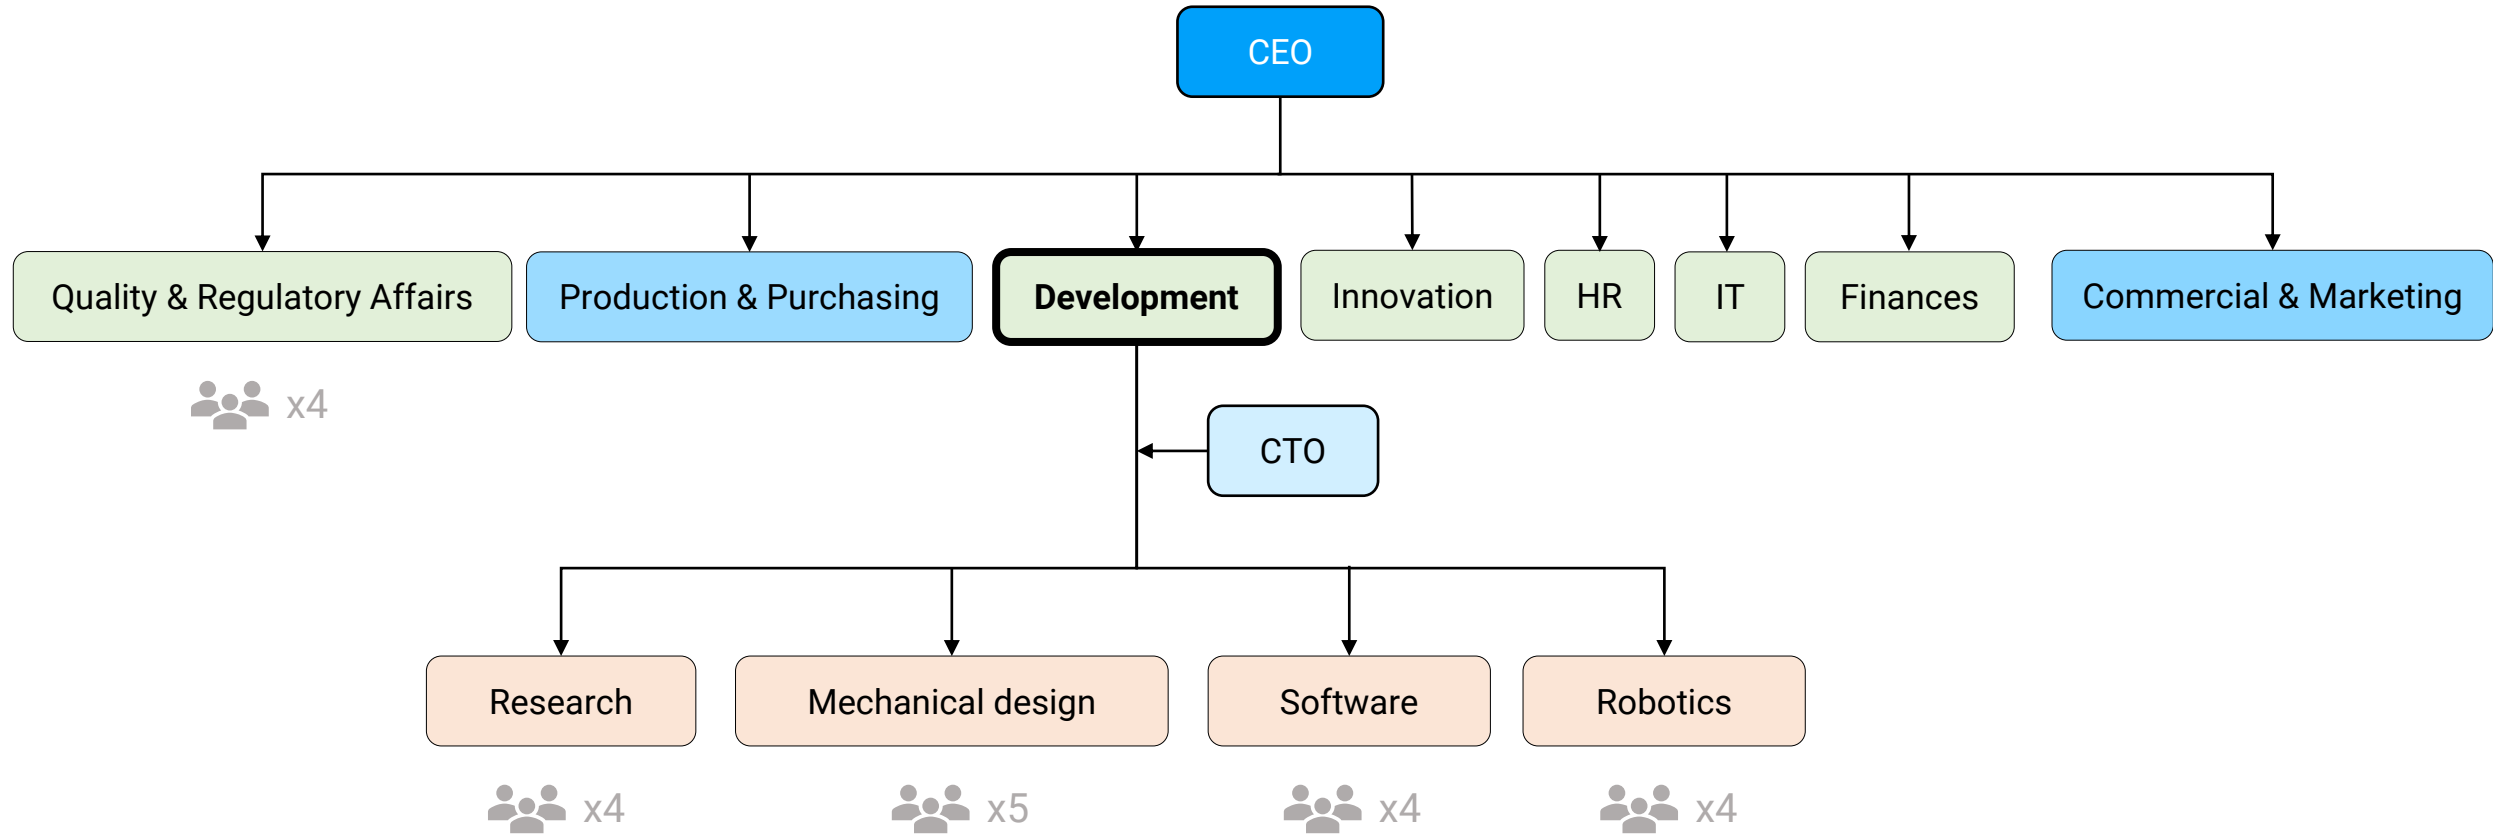

WHO WE ARE?

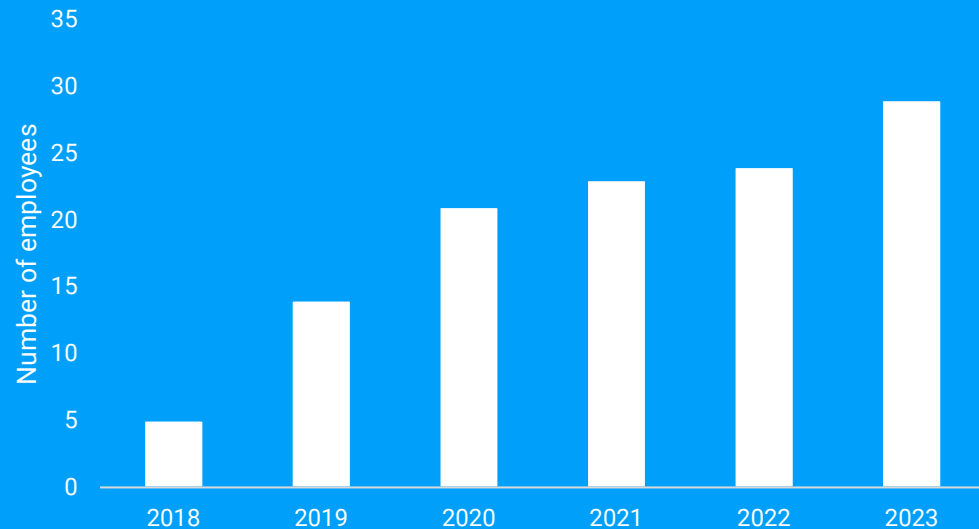

MEET OUR TEAM

WHO WE ARE?

LET'S WORK TOGETHER

27 people (5 PhD)

- ✓ Experience in **health sector** and start-up **management**
 - ✓ High **technical** expertise
- ✓ **Motivated** and moon-shot thinking

We are a **FAST GROWING** company and we are always looking for talented people!
